

# Developing the next generation of ESACT

We continue our successful series of ESACT Frontiers Retreats and invite you to the 4th edition taking place in Brussels, Belgium, in October 2023. The retreat is dedicated to **early career scientists** working on the advancement of cell technologies and related fields across **biologics, viral vectors and cell-based therapies**.

- Excellent scientific program, with sessions focused on early career speakers
- Dynamic workshops on transferrable skills and personal development
- Inviting atmosphere for networking and interactions

## SAVE-THE-DATE

*October 18–21, 2023 at the Bedford Hotel – Brussels, Belgium*

*Updates coming soon – stay tuned!*
